

ITENOS stands for more than 25 years of ICT experience. We put our faith exclusively in state-of-the-art technologies, so we always deliver the best solution.

FRA1

Data center Frankfurt 1 (Kleyerstraße)

Your data is in good hands in „Frankfurt 1,“ our largest data center. Here, we offer companies of all sizes maximum connectivity, security, availability and flexibility – always with state-of-the-art technology. The location is directly connected to DE-CIX, the world's largest internet exchange, allowing 900 carriers and 15,000 interconnects to be reached with the shortest latency times. This benefits not only large companies, but small and medium-sized firms, too. High-performance internet access, Cloud Connects and ethernet connectivity via our DataLogistIX platform complete our services.

Among the equipment features of „Frankfurt 1“ are state-of-the-art access controls, a redundant power supply, an n+1 precision air-conditioning system and a highly effective early-warning system for fire. All alarms and technical notifications are immediately send to our service desk in Bonn. In this way, we guarantee the highest possible reliability.

Location:

- Frankfurt am Main, Kleyerstraße 90
- More than 14,000 m² total area
- Colocation areas and dedicated rooms
- Racks arranged by cold and warm aisles

Connectivity:

- Direct connection to DE-CIX internet exchange and Telekom node AS3320
- High-performance connectivity to more than 900 carriers worldwide
- Manufacturer-based platform from Cisco
- IPv6 ready
- DataLogistIX platform for IP Access, IP Transit, Cloud Connects, ethernet und wavelength solution

Security:

- 24/7 monitoring
- Physical and electronic access controls
- Break-in, fire and water detection system
- Argon extinguisher system

Cooling:

- Redundant (n+1) precision air-conditioning system.
- Cold air distribution via raised floor
- Central humidification system
- Use of free cooling to reduce power consumption

Power:

- Redundant UPS systems 230/400 volt
- Power supply via A-B rail system and terminal boxes
- Electrical installation with surge protection and power distribution
- Emergency power system for autonomous operation

Services:

- Assembly, disassembly and disposal of customers' own racks
- Hardware installation and removal
- Installation and deinstallation of power supply
- Performance-level measurements
- 24/7 service desk in Germany
