

# DATA CENTER FRA1

ITENOS

**ITENOS** stands for more than 30 years of ICT experience. We put our faith exclusively in state-of-the-art technologies, so we always deliver the best solution.

Your data is in good hands in "Frankfurt 1", our largest data center. Here, we offer companies of all sizes maximum connectivity, security, availability and flexibility – always with state-of-the-art technology. The location is directly connected to DE-CIX, the world's largest internet exchange, allowing 900 carriers and 15,000 interconnects to be reached with the shortest latency times. This benefits not only large companies, but small and medium-sized firms, too. High-performance internet access, Cloud Connects and ethernet connectivity via our DataLogistIX platform complete our services.

### Modern equipment and maximum service

Among the equipment features of "Frankfurt 1" are state-of-the-art access controls, a redundant power supply, an n+1 precision air-conditioning system and a highly effective early-warning system for fire. All alarms and technical notifications are immediately send to our service desk in Bonn. In this way, we guarantee the highest possible reliability.

**ITENOS**  
IT's us.
