

DATA CENTER FRANKFURT 3

Modern infrastructure at the Rhein-Main area

Our [third data center in the Frankfurt area](#) is conveniently located in Eschborn, close to the A5 Autobahn and just a 15-minute drive from Frankfurt Airport and Frankfurt Central Station. It further expands our portfolio in Germany's most important [data center](#), IT, and telecommunications hub, and allows us to offer our customers excellent [connectivity](#) in a facility nearly 2,500 m² in size. In addition to an office area and ample parking, the data center boasts a range of on-site services.

Excellent networking and high availability

Customers enjoy high-performance Internet connections, Cloud Connects, and Ethernet Connect thanks to its connection to our [DataLogistIX platform](#). This carrier-neutral Tier 3 data center is well-protected thanks to [access control](#) and continuous CCTV monitoring with a security archive. High availability is guaranteed by a redundant power supply with independent A and B feeds to each server cabinet, on-site emergency power generation from renewable energies, and fire extinguishing systems in all the center's technical and critical areas.

WHAT DISTINGUISHES THE FRANKFURT 3 DATA CENTER?

Location

- Eschborn
- Just off the A5 motorway, 15 minutes by car to Frankfurt Airport and to Frankfurt Central Train Station
- About 2.500 m² total area
- 2.400 kW power
- Tier 3 data center

Connectivity

- A variety of fiber optic entry points and meet-me rooms
- Directly linked to local MNO and last mile network carriers for low latency performance to wireless and last mile clients
- Cloud-Connect (to all hyperscalers)
- DataLogistIX platform for IP-access, IP-transit, Cloud Connects, Ethernet and Wavelength solution

Security

- 24/7 access with access control system
- Permanent CCTV monitoring with secure archive
- 24/7 Network Operation Center Services

Fire safety

- Early smoke detection and alarm system (VESDA)
- Fire suppression equipment in all technical and critical plant areas

Cooling

- Cooling and humidity design complying with ASHRAE A1 allowable category
- Heat recovery with high export temperature to local heating networks

Power

- Redundant power with independent A and B feeds to each cabinet
- Power redundancy at N+1 power
- Operation with 100 % green electricity
- On-site backup power generation from renewable sources
- Design Power Usage Effectiveness (PUE) at 1.29

Services

- Assembly, disassembly and disposal of customer racks
- Hardware installation and operation
- Installation and deinstallation of power supply
- Performance-level measurements
- [24/7 service desk](#) in Germany

With more than 30 years of experience in the IT industry, ITENOS is your reliable partner. To ensure the greatest possible customer satisfaction our high-quality solutions and services are of course [ISO certified](#) – and we as a company also hold other [awards](#).
