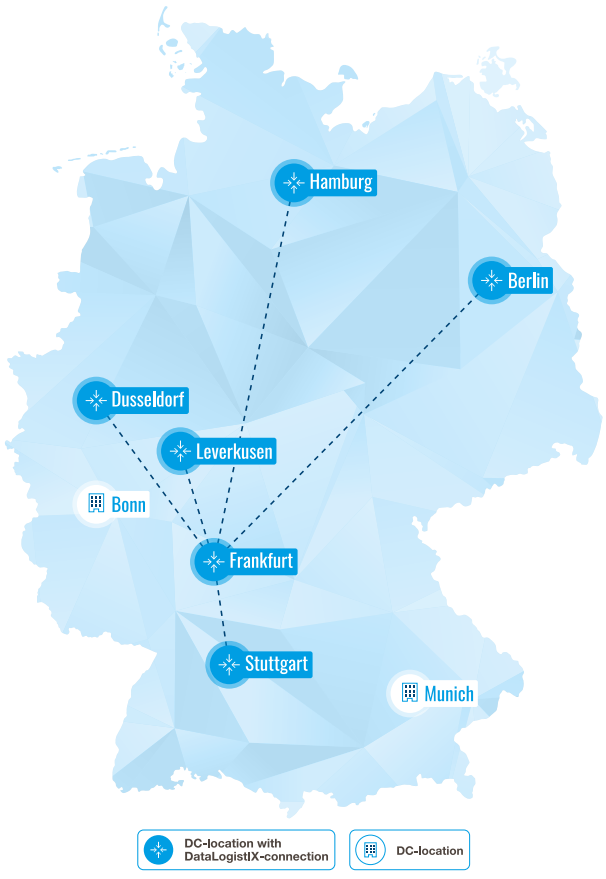
DATA CENTER FRANKFURT 2



Broad portfolio

In our data center "Frankfurt 2“ we offer our customers Tier 3 data center spaces. These are carrier-neutral and feature a secure and state-of-the-art infrastructure. "Frankfurt 2" is directly connected to our data center campus at Kleyerstrasse via a core-and-edge solution. In this way, we expand the density of connectivity at the Frankfurt location and provide companies of all sizes with more space and a broad range of services. High-performance Internet connections, cloud connections and Ethernet connectivity via our Data LogistIX platform complete our range of services.

Your IT infrastructure in good hands

Similar to the other data centers, the ITENOS renown, high IT security standards apply to "Frankfurt 2" as well. The location also has its own security and operations control center. Furthermore, the data center is equipped with an uninterruptible power supply, cooling and air circulation systems, as well as a fully automatic fire protection and extinguishing system. Thus, our customers know that their data is always in good hands.
